

Delon Pyle

ASSISTANT ICT ENGINEER

Professional Summary

Results-driven Assistant ICT Engineer pursuing a BSc in IT specializing in Network Administration and Technology Development. Leveraging over three years of experience in software development, I excel in API integration and crafting intuitive user experiences. Known for my creativity and effective communication, I thrive in collaborative environments, consistently delivering innovative solutions through prompt engineering and efficient version control. My expertise in virtual containers and Frappe client scripts underscores my commitment to driving technological advancement and streamlining processes within the industry.
